Forecast for Friday 23 Sep 2022

Weather: Dry and clear at first overnight, turning quite cold. Cloud thickening at times later in the night and during the morning and a few showers developing, one or two of these quite heavy for a time, moving through quite quickly in the cool westerly winds.

Chance of cloud-free hill tops above 800m: 80% improving to 90%, some patches of low cloud in the morning and around heavier showers.

Low cloud and visibility: Patches or few cloud above 600m in the morning especially around more exposed westerly facing tops. Cloud mostly lifting but patches may reform in afternoon showers around 700m and above. Visibility mostly good, although moderate in any showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Feeling cooler than previous days out on the hills in the fresher northwesterly airstream with freezing level falling towards the summits later in the day.

Forecast for Saturday 24 Sep 2022
Weather: A dry and bright day on the hills, very slight risk in the morning of a shower but a pleasant day otherwise.

Maximum wind: Northwesterly 10-15mph

Chance of cloud-free hill tops above 800m: 85% rising to 100%, patches of early morning cloud above 700m.

Low cloud and visibility: Patches of low cloud above 700m likely in the early morning, these lifting in the afternoon.

Temperature: **Glens:** Plus 3 rising to 13 Celsius.
At 800m: Plus 1 rising to 6 Celsius
Freezing level: Around 1500m
